Red Cross Babysitting Class

This course includes the information and skills necessary to provide safe and responsible care for children in the absence of parents or adult guardians. This training will help to develop skills in leadership, professionalism, basic care, safety/safe play and first aid.

This course will provide knowledge and skills practice in first aid and breathing emergencies. However, this course will **not** provide you with certification in first aid or CPR. We recommend that you enroll in an American Red Cross First Aid or Infant and Child CPR course to get this certification.

Successful course completion requires participation in classroom and skills demonstration. Some practice sessions require physical activity. Please wear comfortable clothing and avoid wearing dangling jewelry or jewelry with sharp edges. If you have a medical condition or disability or if you have any questions regarding your ability to participate fully in this course, ask your parents or guardians to discuss this with your physician or health-care provider and the appropriate person at the local Red Cross chapter before you start the course.

Upon successful completion of the American Red Cross Babysitter's Training course, you will receive the *American Red Cross Universal Certificate* indicating Babysitter's Training if you are age 11 or older by the day of the course.

Children must be at least eleven (11) years old to participate. Payment is due at time of registration. This is a 6-hour class; you must be able to stay until class ends to receive certification.
